

The students of the parliament are sincerely grateful for the support of the administration.

As an official participant on the Academic Council I know how is a decrease in approved regulations in the reporting period, which means statutory and regulatory proceedings of different areas of University operations.

*Within the reporting period, the University increase in the different spheres:*

- University's public events using digital technologies, where were students (Conferences, webinars and others) - 28;
- our students all the time participants on the different events, we have taken a lot of new formats on the Youtube channels;
- we conducted first International students parliament in our country;
- acquired several media partners: Interfax-Ukraine information agency, Kyiv TV channel, the first All-Ukrainian ecological TV channel – ECO TV, BamBarBia.TV

Many plans have been implemented this year that would not have come without our administration.

Sincerely,

Johnny El-Boutty,  
Vice president for work with foreign students  
of IEU Student Parliament
